

adaptive Data Governance Accelerators™

Get up and running quickly for performance and compliance benefits

Adaptive Data Governance Accelerators™ are offered through *Adaptive OnDemand™*, our new online services that will help you jumpstart and continuously manage activities – while creating business value at every stage.

Start your program quickly with *Adaptive Data Governance Accelerators™*:

- Jumpstart your people and resource planning
- Accelerate to deliver results early and often
- Hit cruise control and enjoy the rewards

Create confidence in outcomes and improve competitive advantage:

- Leverage best practices to reduce guesswork
- Streamline to avoid bureaucratic buildup
- Focus on efficient, measurable controls
- Collaborate to align and share knowledge
- Be proactive for faster audits and compliance

Rapidly launch five critical *Adaptive Data Governance Accelerators™*

Build a complete view of your Data Governance and all its critical elements and dependencies. Take charge with clear visibility into benefits and costs.

Be up and running within days – even hours – in five critical areas of Data Governance:

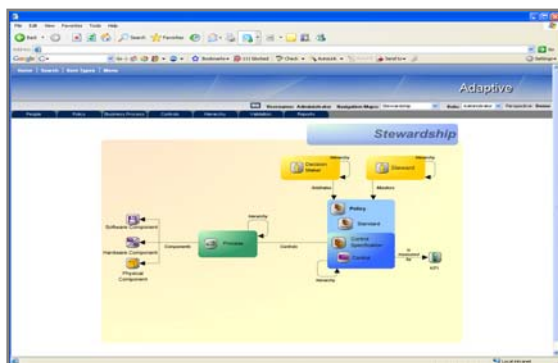

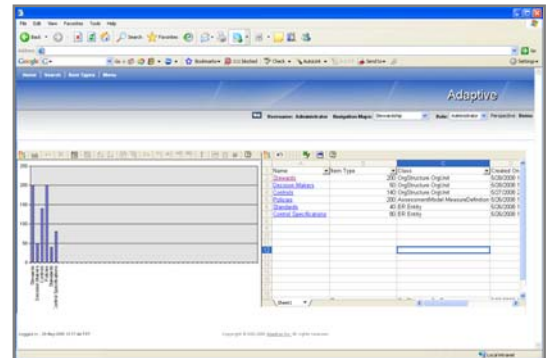

- Framework and Roadmap
- Stewards and Controls
- Common Business Terms
- Compliance Reporting
- Data Quality Metrics

Consistently leverage your chosen Data Governance Framework

Simple to tailor and manage, each Accelerator lets you embed a data governance framework of defined methods, practices and procedures directly into your daily activities for a consistent user experience.

- Create your own unique framework, leveraging Adaptive Jumpstart Modules™
- Adopt a framework published by an industry standards body such as ISO or ANSI
- Subscribe to a framework offered by a range of participating industry experts
- Capture your framework from your chosen consultant

Buy it how you want it, when you want it

- Adaptive OnDemand™ for immediate online access to Adaptive Data Governance Accelerators™
- On-premises installation providing Data Governance as Powered by Adaptive™
- Transition easily from one to the other at any time

Start small and easily extend for an exact fit

- Grow incrementally and confidently
- Launch your accelerators based on what you want to focus on first
- Easily deploy additional Accelerators at any time

Trust that your processes and technology work together

- Leverage industry standards and best practices at all levels
- Easily embed best practices directly into the user experience
- Automatically import and export information through standard formats
